

## Letter of Recommendation for Lark West

February 2014

To whom it may concern:

I was fortunate to meet Lark the previous summer, 2013. Lark was enrolled in my section of: SP 572 Infant to Preschool Assessment. During the first class session the students introduced themselves and talked about their background. Lark's earnest and enthusiastic manner, in addition to a diverse background, allowed her to stand out among the other students.

Lark's intellectual curiosity has been evident from the onset. Lark was highly motivated and always organized and prepared. Lark was flexible, proficient, and adaptable to the nuances and expectations of assessment and report writing. Her written work was thorough and effectively communicated its purpose. Lark is very task orientated and work was completed in advance of expectations.

Lark has been able to maintain the high standards she exhibited in my classroom in subsequent classes and practicum. Lark is a team player, yet also able to demonstrate excellent leadership qualities. All of her attributes contribute to making Lark the type of individual that would be an asset to any program in the field of school psychology. I highly recommend Lark for any future endeavors.

Dr. Renee Lewin  
Adjunct Professor
